LETTERS TO THE EDITOR.

THE DUBLIN COAL SUPPLY.

TO THE EDITOR OF THE IRISH TIMES.

SIR, When representatives of the Women's Union waited on the Dublin Corporation last Monday last members of that Committee seemed to be entirely unaware of the very serious condition of the families of the workers and the poor, owing to the refusal of the merchants to relax their terms of payment to the retailers and hawkers for their immediate needs. The following letter from Miss Gargan, which I have received since I wrote to you on this subject, will I think prove to them that, if anything, we underestimate the case—

"As nothing has been done yet about coal for the workers of Dublin it is really dreadful to find that things are as they are. The shops have not a sufficient stock of coal to last the week."

and footings without a fire. On Monday it was a day. I do hope something will be done soon to make things right, and better. I am sure that the Government will not allow your dedication to the Corporation Committee. It is so important that these people should have something of the same kind of pay at present.

We have it from the bell-men that they have been unable to supply the wives of the workmen with coal. I am sure that the Government will, therefore, these households have had a coal card to Sgd. or fl. a stone—that is at 5d. a stone of 56 lb. a bag. The Women's Guild will be glad to see that the Government is taking the rational view of the matter. I am sure that the Government will be glad to see that the Government is taking the rational view of the matter. I am sure that the Government will be glad to see that the Government is taking the rational view of the matter.

Ireland—not on the heels of last year's apple crop, but on an average amount per head, arrive at 100 lb. on scientific lines, and find as requisite for the maintenance of the population. I am sure that the Government will be glad to see that the Government is taking the rational view of the matter.

WOMEN'S GUILD, 10, MILLER'S PLACE, W.C.2.

Under that line of reasoning in a practical sense, man-made in Ireland, the Coal Controller could control the disposal of all fuel—that is, the coal, the gas, the oil, the electricity, the gas, the electric power for heating purposes, as well as coal.

In your issue of to-day you state that some people seem to look upon the shortage of coal as the cause of the population, since a reduction of the population would mean a reduction of the demand. A fair system of reasoning for Ireland might be the best answer to such a suggestion, but, if the supply for domestic purposes in Ireland continues to be at the rate of one ton per head of the population, since a reduction of 10 per cent, while in England it is at the rate of 25 tons per head, means 15 per cent, this will be evidence that neither justice nor humanity has at present power to modify the coal situation, moved as it is by the coal situation in life and health of our people. The coal situation is a problem of the future.

has, for, with the advent of the women's movement, to speak of manhood suffrage—initially eventually recognized as more precise than the term gold.

The second request of the Women's Corporation is that the Corporation seek immediate assistance from the Government for importing coal to store, under the supervision of the Corporation, in the event of a strike, so that a famine of fuel may be averted. The coal to be sold at fixed prices to the usual customers—the bell-men, hucksters, and hawkers—will be sold by them at fixed prices per bag and per ton.

(3) That, pending arrangements for rationing, steps be taken to ensure that the retailers of coal pay the full amount required by their customers; that inquiries be immediately instituted by the Corporation to ascertain the reasons for any delay in the payment of the full amount for coal, and, for the purpose of the basis and duty, by the coal-

...the provision of this supply be a first charge on any coal imported to Dublin, except at the request of us.

We desire to impress upon the public the true duty of taking steps to prevent the entry to the city while there is yet time for the warnings intended to have fallen unheeding ears.—Yours,

S. C. HARRISON.

THE SWEETMEATS (IRELAND) ORDER.
TO THE EDITOR OF THE IRISH TIMES.

SIR,—Many persons are under the erroneous impression that in future sweetmeats are to be sold only in shops which sell nothing else but confectionery. We apply all our trade to the export of sweets, and we are therefore unable to make any statement as to the reasonableness of the proposed order.

where the vacation exceeds £25, if 20% of the business was derived from the sale of sweetmeats, a licence is granted, and the trader is permitted to transfer the same. Therefore, the trader receives the very limited number of traders who survived less than 20% from sweetmeats, and he is able to transfer their supplies to the public. Although the two classes mentioned above, who are dependent on the sale of sweetmeats, are the section of traders affected by the Order, they are largely represented in the Dublin Chamber of Commerce, and, no doubt, in the various associations of traders. They are also the section of extensive licensed victualler and caterers and those who originally got into sweetmeats as a side-line. They would not be complained to close down if deferred temporarily, but they would be if the Order is to protect the small trader.

There were no developments yesterday in regard to the Rathmines labour trouble or the Dublin strike dispute.

The dispute has not been reached between the County Cooperative Society and over 60 of its employees, who struck work on Monday morning. The society's management says that the strike is being refused. The men are doing picketing at the town and in the country, but the stores are kept open by the manager and charges are levied on the strikers.

The men are in the town in a fortnight.

There is no strike in the coach-making trade in Dublin. The men are not being asked for a wage increase because they were not asked for one last year. It is stated that not far short of 500 men are employed in the trade.

The men are not being asked for a wage increase because they were not asked for one last year. It is stated that not far short of 500 men are employed in the trade.

An offer of 6s. was made, but would not be accepted. The dispute which has been going on since the 1st of the month.

The Chase factory, Omaha, the management issued a statement in which they denied that there had been anything in the nature of a strike of the girls, but that owing to the girls' refusal to go into the habit of coming in at very early hours, they were given a 15-cent raise in order to reflect that on and after the 22nd of the month the girls would be paid 15 cents no matter whether they admitted or not. The women's work is a body of the workers' work. It came in a body shortly after 8.30 A.M. and they were told that the terms of the settlement were that if they came in on or after 8.30 A.M., they come back the next day. The next day they would have been admitted, but did not return. The management denied that there was anything in the nature of a strike of the owners, on a recent visit, explained the fact that the management would pay, and not the workers expressed dissent.
